Communication & Presentation

What Judges are looking for: A professional declaration that makes sophisticated research understandable

Guidance:

- Prioritize clarity over unnecessary technical jargon
- Use headings to make a logical research narrative
- Keep charts focused on one message
- Label axes, units, periods, and data sources
- Do not include calculations or models you cannot explain
- Avoid dumping raw outputs from Python / Excel
- Use tables when exact comparison matters and charts when patterns matter
- Be concise in your writing

Optional ways to strengthen your report*:

- Performance Charts
- Annotated methodology diagrams
- Concise tables
- Proper citations
- Consistent formatting

*These methods are suggestions, you may also use other ways to strengthen your report.
